About Me

I am a motivated Front-End Developer with a strong passion for creating clean, efficient, and responsive web applications. With hands-on experience in React, Next.js, and TypeScript, I enjoy turning designs into pixel-perfect, user-friendly interfaces. I am eager to learn and grow professionally, and I thrive in collaborative environments where innovation and quality matter.

Skills

- HTML5, CSS3, Sass, JavaScript (ES6+)
- React, Next.js, Redux, Context API
- Tailwind CSS, CSS Modules, Responsive Design
- Webpack, Vite, Axios, Fetch API
- TypeScript, RESTful API integration, Git

My Website

[My Personal Website](#)

Projects

IMDb Project

Developed a dynamic and responsive movie database web application using React and Tailwind CSS. Integrated with external movie APIs to fetch and display up-to-date movie information. Ensured cross-device usability with responsive design principles.

[GitHub Repository](#)

Hack Project (HTML & CSS)

Created a clean and semantic website using pure HTML and CSS without JavaScript. Focused on layout precision and cross-browser compatibility.

[GitHub Repository](#)

Interview Project (Personal Website)

Developed a personal interview website introducing myself and showcasing my skills. Implemented with responsive design principles to ensure usability on various devices. Focused on clean layout and user-friendly navigation.
